A little bird hatched out of a shell. She found her new shell very challenging. Scared was the little, she tried to confine herself to the older shell. Suddenly she was surprised by the shadow of elderly bird over her. The elderly bird promised her to teach and make the new shell a wonderful place. The little bird slowly learned to stretch her little wings into the open sky. She flew so high and inspired many. She learned to find her daily grains. The little bird was very proud. But the elderly bird said, true pride is not all about finding your daily grain. Real pride is when you learn to share it with other little birds who are still confined in their older shell, still scared to stretch their wings to find their own grain. The elderly bird taught the little bird that life is never about self gratification but being a spark of inspiration. The little bird who got her lessons is now a mother bird, always thankful to her wise elderly bird. My JAC.
