7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

1. JACEP

2. Promotion of Research

*** Details are provided in Annexure-III**

7.4 Contribution to environmental awareness / protection

- **The use of CFL bulbs instead of tungsten lamps**
- **Solar inverters for fans and lights, solar lights and water heaters**
- **bio gas, gobar gas and gas from night soil plants**
- **Nerium pathways at the entrance of the college.**
- **Planting of saplings**

7.5 Whether environmental audit was conducted? : Yes No

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

SWOC Analysis

Strengths

- **Serene Atmosphere conducive for teaching and learning**
- **Excellent infrastructure**
- **Dedicated management, committed and competent faculty**
- **Updated and standard curriculum on par with reputed National Institutions**
- **Availability of 'Ladies Special' Government and Private buses into the campus**

Weaknesses

- **Most of the students are first generation learners**
- **Communication in Tamil by the students**
- **Majority of the students are from Tamil Medium**

Opportunities

- **Vertical mobility from UG to Ph. D. Programmes**
- **Coaching for NET / SET and other competitive examinations**
- **Soft skill training and spoken English classes**
- **Placement Cell training to the Students**

Challenges

- **To produce 100% success rate**
- **To make the students communicate in English**
- **To attract reputed companies for campus placement**
- **To organize exchange programme with institution abroad**

8. Plans of institution for next year

- **To implement SAP01 and SAPB1 courses through SAP Dongle Site License.**
- **To introduce JAC Community College with the financial assistance from UGC.**
- **To develop e-tools for teaching.**
- **To promote Green Practicals.**
- **To apply for CPE Status.**

Best Practice – I (2013-2014)

1. Title of the Practice : JACEP

JACEP (Jayaraj Annapackiam College Extension Programme) is an extension programme, an integral part of higher education. The College aspires to focus on the overall personality development of the students along with the academic excellence. It is one of the best practices used to realize the goals of the college - the empowerment of rural women and bringing about social changes.

2. Objectives of the practice

The lofty objectives of JACEP are

- To liberate the weaker sections of the rural areas from the shackles of the perennial, economic, social, political and educational constraints
- To provide social dimension to the educational system of the college and inculcate social responsibility and commitment in students
- To bring forth the team spirit and leadership qualities of the students and broaden their social outlook that will help them work for the welfare of the community
- To restore gender equity and make available equal opportunities to emerge full-fledged and take up new ventures

3. The Context

Periyakulam is amidst the labyrinth of tiny villages, some with very thin population and incredibly with lowest percentage of literacy. Ignorance and illiteracy estrange them from the fast moving hi-tech world. Hence it is imperative on the part of the college to extend their service and give exposure which is the dire need of the people. JACEP is dauntless in launching well-planned activities. It has adopted 14 villages to ensure wholesome development of the villages within 30 kms from the college. It has taken all appropriate measures to empower the rural women to progress in their life.

The watch word of JACEP is to develop concern for the voiceless and faceless. It makes them identify their strengths, weaknesses and be aware of social problems. It also creates awareness of the Government Welfare schemes. Another important mission of JACEP is to equip the Self Help Group Women with traditional and modern skills of different trades, to generate income and improve their financial status.

4. The Practice

JACEP is a programme, unique in its context and practice. It is offered under Part-V of the curriculum in IV and V semesters for 70 contact hours and has three phases:

- Meticulous survey to identify the needs of the adopted villages
- Realistic assessment of available resources and drafting viable plans
- Activities undertaken by the students with the co-operation of the villagers for their development.

The target groups in the villages face several problems regarding access to education, health facility, drinking water supply, power supply and transport. The student volunteers of each class are divided into six groups to take up different tasks executed in 70 hours to reach specified target. It is accomplished by the end of their degree.

The six groups are assigned the tasks related to Environment, Health and Hygiene, Education, People's organization, Application of Knowledge and Liaison with Government Agencies. Organizing awareness camps, meetings, conducting competitions and screening documentaries are the common techniques adopted by all the groups to perform their tasks and realize their goals.

The **first group** aims at giving environmental education, advocating sanitation and smokeless brick kilns. The **second group** makes a survey of health problems and gives required guidance. The **third group** propagates literacy programmes, non-formal education, readmitting dropouts and encouraging people to watch educational programmes.

The **fourth group** forms Youth Club, Women's Club and '**Sangams**'. They also organize meetings for agricultural labourers and masons and supportive workers. The **fifth group** focuses on the application of knowledge acquired by students in their respective subjects to the people in the adopted villages. The **sixth group** liaises with different Government Agencies like District Rural Development Agency, Social Welfare Board, Block Development Office, Panchayat Union Office and Transport Corporation to get their needs fulfilled.

Each department executes its plan according to the nature and convenience of its resources. The highlights of the work done by the departments are as follows:

Students of **Tamil** discipline conduct awareness programmes through street plays and dramas and programme to develop reading and writing skills of the school children. Students of **English** discipline teach Communicative Skills in English, conduct language games to school

children and teach them the uses of mass media. Students of **History** highlight the social issues of the villages and the country at large and instill patriotism to promote peace and harmony in the nation.

Students of **Mathematics** explain the motion of the planets using astronomical models to school children and train them in various bank transactions. Students of **Physics** give training in electric and electronic tools to school children. Students of **Chemistry** educate in food analysis, soil water analysis, create awareness of pollutions and impart skills for making candles, soap, phenoyl, cosmetics and herbal medicines.

Students of **Zoology** create awareness of the causes of diseases, suggest preventive measures to promote health and hygiene and provide tips for nature conservation. Students of **Computer Science** impart a sound knowledge of computer applications to youngsters to cater to the present needs of the society.

Students of **Commerce** teach skills on handicrafts and develop entrepreneurial skills of the people. Students of **Commerce (C.A.)** take the schemes of LIC and banks for savings / loans to the people and educate them in promoting savings, repaying loans and maintaining accounts. Students of **Business Administration** teach marketing strategies and the rights and duties of consumers.

Consolidated report of all the activities are submitted at the end of V semester and one credit is awarded for it.

Evidence of Success

Training programmes have been arranged to improve the skills of rural women for gainful employment. Awareness programmes are conducted for the marginalized women for their empowerment.

Outcome (Target Groups)

The services of JACEP have yielded satisfactory results to various disciplines as fruits of their hard labour and selfless service. The outcome of the outstanding performances of JACEP is highlighted below:

- Created good rapport with the village leaders and the people
- Enriched the teaching and learning processes in schools by using Audio Visual Aids
- Imparted social and moral values
- Helped to create healthy and pollution - free villages
- Created opportunity for sharing the knowledge and experience of the senior citizens
- Enabled people to avail the Government Welfare schemes like widow's pension, Voters ID, ID for the differently-abled etc.
- Given awareness of fatal diseases like AIDS and T.B.

- Tackled health hazards by maintaining good health and hygiene
- Eradicated illiteracy by encouraging the school dropouts for readmission at schools

Outcome (Students)

The students engaged in JACEP enjoy rich rewards of social service as it enriches their personality.

- They have been exposed to social problems.
- They have been aware of their responsibilities and commitment to the society.
- The peer group relationship has been improved.
- The volunteers have acted as instruments in bringing about social transformation. It has removed the social discrimination among children of the villages.

5. Problems encountered and resources required

JACEP has found the public reluctant to involve themselves in the extension activities proposed by the college because of inadequacy of time and the necessity to earn their livelihood through hard labour. Exhaustion and lack of interest are the major impediments for their inability to participate in the welfare activities.

Lack of proper roads and transport has caused many inconveniences to reach the adopted villages. JACEP has made recommendations for Mini Bus Services to rectify this problem.

Inadequate water facilities and means of accommodation have posed a great challenge to hold meetings for the children and the public frequently especially in rainy and summer seasons.

Efforts have also been taken to solve these problems by representing them to the Panchayat Presidents and the officials concerned.

Best Practice - II

The main focus of the higher education in India is to promote research. In accordance with the growing need for the upgradation of the faculty and the students in higher education, enormous efforts are taken by the management of the college to inculcate research culture in the staff and the students to arouse curiosity, develop objectivity and improve critical thinking.

It ensures continuous professional growth on the part of teachers and of problem identifying, systematic planning, careful implementing and

solution finding abilities on the part of students. Research Committee in the college takes initiatives for all activities related to research.

1. Title of the Practice

Promotion of Research

2. Objectives of the Practice

- To keep pace with the relentless wheel of change and update the intellectual calibre of the faculty
- To encourage the faculty to pursue Ph.D.
- To acquire guideship to produce more research scholars
- To motivate the faculty to apply for the major and minor research projects by providing guidelines and details of funding agencies
- To fulfill the requirements to promote the research departments into research centres
- To collaborate with other institutions and universities in and abroad
- To arrange for interface among the institutions, industries and the public to take up research projects relevant for the present day
- To encourage the faculty and the students to organize and present research papers in the national / international seminars / conferences / workshops
- To publish quality research articles in reputed journals, edit study materials for the prescribed syllabus and author books of high originality
- To provide seed money for research activities
- To take steps for publishing a Research Journal

3. The Context

The College generates knowledge for dissemination and so its main focus is on quality research. It has created a research ambience through strengthening infrastructure facilities, motivating staff members and guiding them to acquire grants from the funding agencies to launch on research undertakings - pursuing Ph.D., taking up minor or major research projects, guiding research scholars and publishing research papers and books.

Challenging issues to be addressed while designing and implementing the practice

- The great demand of the rural based students for the attention of the staff to cope with their studies
- Requiring sound knowledge of technology development

- Creation of awareness on the need for research to update the knowledge of the students and the staff at international standards
- Creating an interest in research in students through individual or group research projects as part of their syllabus
- Analyzing and addressing the needs of the society through JACEP and submitting reports based on their field research
- Forming linkage with the industries and research centres and collaborating with them for the research projects of staff and students.

4. The Practice

The institution provides opportunities to the faculty to do Ph. D. under FIP or Part Time research privately. The College also motivates for doing major and minor projects through UGC and other funding agencies.

A Research Committee under the Chairmanship of the Principal actively involves in promoting research culture among the staff and students in the campus. It sets the target for achievement in the action plan presented and submitted in the Planning and Evaluation Committee meeting every year. The attainment of the target is reviewed at the end of the academic year.

Support facilities for research

- Special consideration in the form of leave is given to the staff who are on the verge of completing their research work.
- The visits to various Universities and libraries for data collection have enriched their research.
- The management extends co-operation to the staff to go abroad for paper presentation and send proposals to UGC to avail travel grant.
- Steps have been taken to have a linkage with Liverpool Hope University, U.K. to promote teaching, learning and research.
- The management has decided to give financial assistance to the self-finance faculty who make research publications in the journals with high impact factor.
- Rewards of teachers are based on their achievements in research.

Constraints faced in the pursuit of research

- Owing to time constraint and interface, the gap between academia and industries is not adequately bridged to fulfill the needs of industries.
- The students can be further motivated to explore new areas of research and procure funds from various funding agencies.

- Students can be provided hands-on activity based research in the industries to address challenges faced in the job market.
- Extension Programme can focus on neighbourhood oriented research to solve real life problems.
- Interdisciplinary and socio- economic developmental research can be encouraged among the students and the teachers.
- Ph.D. holders can be motivated to publicize their research in the form of books.

5. Evidence of Success

The achievements in the field of research are the main indicators of excellence in research practiced at the college.

- Four staff members have successfully defended their doctoral degrees in different Universities. A good number of staff have availed the opportunities for presenting papers and publishing articles and books. **3 Minor** and **3 Major Research Projects** are undertaken.
